

Opens doors to easy installation

We've used our 30 years' engineering experience to create Aliro, Vanderbilt's next generation of access control. Designed to be faster to install – and more straightforward to set-up and quote – Aliro removes the complexity from access control and allows you to get more done, more easily, in less time.

IP access control, not complication

VANDERBILT

Easy to quote, easy to sell

There are no complex quotations with Aliro - simply count up the doors and you're done - and a simplified component list means your specifications will be consistently reliable with less possibility of omissions. Prices will be clearer to your customers too, significantly increasing your probability of a sale.

Faster to install

Aliro gives you the choice of IP at the door as well as traditional RS485 installation methods and makes both faster and more intuitive. The software interface walks you through every step, each access point is pre-configured out of the box, and automated recognise and play makes every single set-up straightforward. From one door to 512.

Intuitive web browser software

Any device with an internet connection can use Aliro's web-based software. This gives you and your customers the flexibility to operate and administer Aliro wherever you are - making programming system functions simple, and keeping updates efficient.

Building new business

We've made sure Aliro helps you build your business. The entry keypad is elegant and intuitive, and the system has features that your customers have always asked for; effective remote management, simple staff training, easily understood pricing and the ability to grow as their needs grow.

Supporting you, and your customers

As you'd expect from Vanderbilt, Aliro is fully supported with sales aids, documentation, its own website and technical support. All you need to help your customers make the right choice, and get the very best from Aliro.

Building the bottom line

You'll appreciate Aliro's ease and reliability of installation, and the way it helps your profitability. The system allows you to get more completed in a day - it's engineered from first principles to speed installation and configuration. You'll see fewer callbacks, more satisfied customers, more completed jobs, more repeat business.

Aliro Part Numbers and Descriptions

Software	
Aliro-SW	Aliro Software
Access Points	
AP01P	Aliro Access Point, 1 door
AP01M-1220	Aliro Access Point (AP01P) +12V PSU, metal cabinet
MiFare Card Readers	
AR11S-MF	MiFare card reader
AR41S-MF	MiFare card reader with keypad and display
Access Point and reader packs (PSU required)	
AP11P	AP01P Access Point + AR11S-MF card reader
AP41P	AP01P Access Point + AR41S-MF card reader with keypad
Access Point and reader packs (In metal cabinet with 12V 2A PSU)	
AP11M-12	AP01M-1220 Access Point + AR11S-MF card reader
AP41M-12	AP01M-1220 Access Point + AR41S-MF card reader with keypad
Request to exit buttons and break glass	
MK-814	Request to exit switch
EB657-S	Request to exit button
WG2001-SG	Break glass unit
Mifare cards	
ABP1000-BL	Blank Mifare Cards (pack of 10)
S54515-Z102-A200	IB43-DesFire blank Mifare Cards (pack of 10)
